

Whether a hotel, condo, business or your home, count on **STARDEK** for long lasting beauty and reliability. Not a paint or stain, **STARDEK** is formulated using tough acrylics, color pigments and cementitious materials. Time tested since 1972, **STARDEK** transforms an oily, mildew or rust-stained surface into a colorful, textured finish that will retain its elegant appearance year after year.

The perfect choice for resurfacing Kool Deck, River Rock or existing concrete. Choose from many designs: brick, tile, slate or create your own!

### STARDEK TECHNICAL REPORT

	<u>Un-modified Cement</u>	<u>STARDEK Modified Cement</u>
<b>Shear Bond Strength</b> (Strength of bond between two surfaces)	<b>80 PSI</b>	<b>250 PSI</b>
<b>Tensile Strength</b> (The ability to resist pulling apart)	<b>210 PSI</b>	<b>925 PSI</b>
<b>Comprehensive Strength</b> (How much weight can be applied before breaking)	<b>2265 PSI</b>	<b>4365 PSI</b>
<b>Flexural Strength</b> (The ability to withstand pressure between points of contact)	<b>750 PSI</b>	<b>1830 PSI</b>
<b>Impact Strength</b> (How much force is required to break the surface)	<b>5 in. Lbs.</b>	<b>37 in. Lbs.</b>
<b>Abrasion Resistance</b> (Percentage of weight loss under abrasive wheels)	<b>22.5%</b>	<b>.03%</b>
